

TABERNACLE BURNS
THE THIRD TIME.DR. TALMAGE'S CHURCH AGAIN
DESTROYED.

Fire Breaks Out Yesterday Morning Just as the Congregation Is Leaving the Church—Regent Hotel Also Destroyed—Loss About Two Million Dollars.

BROOKLYN, N. Y., May 14.—Just after services at noon yesterday and while Dr. Talmage was shaking hands with members of his congregation fire burst out between the pipes of the organ and within ten minutes the big tabernacle was doomed to total destruction. Adjoining the church was the Hotel Regent, eight stories in height, with a frontage of 90 feet on Clinton avenue and extending back 200 feet to Waverly avenue. The fire spread from the tabernacle to this hotel and then to the dwelling houses on Greene and Waverly avenues, opposite the tabernacle. The wind carried the blazing cinders in such quantities in a southeasterly direction that dwelling houses in Washington avenue, two squares away, and also the Summerfield Methodist church were set on fire by them; but the greatest loss on any one of these structures did not exceed \$15,000. The total loss, however, reaches over \$2,000,000.

The first alarm was quickly followed by a second, third and fourth which brought out all the apparatus in the western district of the city. But the church was doomed, and every effort was devoted to saving adjoining property. In three hours only the bare walls of one of the costliest structures of Brooklyn remained standing.

Long ere this, however, it became evident that the Hotel Regent was doomed. The inflammable nature of the material and the great open amphitheater of the tabernacle gave such a draft that the fire was forced into the air in columns of flames that made a fearful picture of destruction. Flakes of burning wood and red-hot cinders were shot up as from a volcano, and, carried by a strong breeze, they swept through the air in every direction.

Before long both sides of Greene avenue were ablaze. So were the buildings on Waverly avenue, but as fast as the flames broke out the people and the firemen extinguished them. The walls of the tabernacle began to crumble and fall, and the great rush of flames which followed started the houses burning again, and at the same time flames were seen bursting forth from the roof of Summerfield Methodist church, a short distance away. Within half an hour the magnificent hotel was seen to be doomed to destruction. No water could reach the fire there.

The guests in the hotel had lost no time in making their escape. They waited only to snatch up a few valuables and run, but wearing apparel and other effects had to be left to the greedy flames. After the flames had licked away the supports beneath nearly all the fire escapes on the north wall of the hotel, with a large portion of the wall itself, the wall fell into the mass of debris with a roar like a distant cannonade. This was quickly followed by the fall of a section of about thirty feet in height on the Waverly avenue side of the hotel, and from that time up to 8 p. m. huge masses continued to fall.

At last accounts two firemen, Edward Sheridan and John Kelly of truck 10, had been prostrated by heat. The furniture in the hotel, which cost from \$200,000 to \$250,000, is entirely destroyed, the total loss on the building and its contents footing up in the neighborhood of \$850,000. The loss falls upon the Brooklyn Hotel company.

The fire spread with lightning-like rapidity, and before sunset had destroyed property to the value of \$2,000,000.

The trustees of the tabernacle met and decided to rebuild the church but not on the same site. The insurance and the money realized from the sale of the present site would enable them to pay off all their debts. Then according to the plan they would raise \$200,000 and within a year would begin to build. About \$70,000 it was thought would be sufficient to pay for a site and a less expensive building would be erected.

It was decided that Dr. Talmage's tour around the world should begin to-day, as arranged. He will start in the evening for Philadelphia and proceed from there to Atlanta, Ga. After visiting some southern cities he will go to San Francisco and sail from there to Honolulu and afterward to New Zealand, Australia, India, Spain, England and other foreign countries.

MONTANA DAM BREAKS.

The Water Sweeps Away Everything Within Several Miles.

LIMA, Mont., May 14.—The Lima dam broke yesterday morning and its body of water is surging down Red Rock river at a terrific rate, sweeping everything before it. Houses, barns, fences, hay stacks and all kinds of stock are being carried away. The railroad companies sent a special train to warn the people between Lima and Dillon and have sent out a large force of men to the scene of the road. The water after leaving the dam has a clean sweep through a well-settled country for over sixty miles and many families will be without shelter or food.

TARIFF BILL MAY BE DEFEATED
Rumor That Democratic Solons Are Against the Measure.

WASHINGTON, May 14.—Nine democratic senators will, it is claimed by the republicans, vote against the passage of the tariff bill in its present shape, and these votes are more than enough to bring about the defeat of the bill now before the senate. An effort has been made to turn Murphy away from the position he has taken, but he declares that his attitude is in keeping with his sense of duty to his constituents. One thing is certain and that is that opponents of the measure are much more hopeful over the prospect than they have been for some days and that the Louisiana people in particular are having their backs stiffened for a stubborn fight.

Republicans declare that while opposed to the bill they will not resort to filibustering but legitimate methods to encompass its defeat, and the assurances which they have received from the democratic side of the senate chamber are of the most encouraging and satisfactory nature. There will be a free and full discussion of the plan of campaign at Senator Sherman's private residence this evening, this course having been deemed advisable in preference to having anything leak out at the capitol too soon.

WANT QUICK ACTION.

State Money Legislators Are Becoming Uneasy.

WASHINGTON, May 14.—The state money men in the house are getting uneasy. They want action taken on the bills to wipe out the tax on state bank issues, and they are ready to have appropriation bills postponed in order that their pet schemes might be given a legislative airing. It is now their design to have the Hawley bill taken up Wednesday if possible. Chairman Springer of the banking committee had hoped to take up this long-deferred bill, which relieves from taxation certain bank scrip issued during the currency stringency last fall, but the state bank men are ready to offer an amendment bringing up the entire state bank question.

In anticipation of the Wednesday debate Mr. Springer has prepared a speech which is said to be the most elaborate review of the banking system made since national banks were established during the war. But it is probable the appropriation bills will hold their position.

To-day Chairman McGann will make an effort to suspend the rules and pass the resolution for an investigation of the labor depression and Coxeysism. The Indian bill is the next appropriation measure on the calendar, followed by the agricultural bill. They will consume the entire week unless displaced by the state bank question.

HOURS OF DEBATE IN THE SENATE.

Important Questions That the Republican Caucus May Determine.

WASHINGTON, May 14.—The course of the proceedings in the senate this week will depend largely upon the result of the republican caucus to-night. There is unquestionably a large element on the republican side of the senate opposed to any course which smacks of filibustering. Senator Harris said yesterday that in case there were many calls for a quorum from the republican side, or if the long speeches continued, he would renew his 10 o'clock motion, but that he did not wish to do this as long as there was any possibility of holding the debate within legitimate bounds. Senator Aldrich said he expected the proceedings this week to be very much on the order of those of last week. He did not believe there would be an effort to change the hours, and he thought the entire week would be devoted to the chemical schedule, of which only seven paragraphs out of the seventy-five contained in it have been disposed of.

Colored Democratic Convention.

WASHINGTON, May 14.—The annual convention of the National Negro Democratic league will be held at Indianapolis, commencing July 3. ROCKFORD, Ill., May 14.—Rockford is preparing to entertain 3,000 strangers this week when the department of Illinois G. A. R. holds its annual encampment, beginning Tuesday and ending Friday. The town is preparing to give them a great reception. From every window can be seen portraits of Lincoln, Grant, Garfield, Logan and other heroes of the rebellion, while the hotels where the old veterans will have their headquarters are ornate in red, white, and blue. Mayor Hutchins is at the head of the committee on reception, and all those who can not find accommodations in the hotels will be taken care of in private houses, which have been generally thrown open by the hospitable citizens.

The calculations made in his official budget regarding receipts from new taxes have been verified by the results of such taxes. Regarding the payment of Mexico's foreign interest gold obligations, Mr. Limantour said that they would continue to be respected.

THIRTY PERSONS BURNED.

Tank of Benzine Explodes During a Fire at Bradford, Pa.

BRADFORD, Pa., May 14.—Several hundred people had a narrow escape from a terrible death here yesterday. In the course of a fire in the barrel-house at the Emery Manufacturing company's refinery a tank of benzine on a siding near by exploded. A panic ensued among the spectators who were watching the fire and they fled in all directions. Fortunately the burning benzine which was flung into the air in sheets of liquid fire had consumed itself before settling down over the crowd. The explosion was followed by a panic that can not be described in words. Blind, unreasoning, pitiless instinct of self-preservation showed itself and the weak went down before the strong in multitudes of cases in the frantic rush to escape what seemed to threaten a horrible death. In the stampede men, as well as women and children, were thrown down and trodden over. Thirty-five of the firemen were burned so that the skin peeled off their faces and hands, and the hair was singed off their heads and faces. Of the many others who are slightly burned, there is no record, and the total number of those burned and injured in the stampede will reach 100 persons. With all the suffering this fire will cause the property loss will not exceed \$5,000.

MAKING PLANS.

Democratic Schemes Ament the Appropriation Fight.

DANVILLE, Ill., May 14.—Attorney-General Moloney, E. R. E. Kimbrough, and George P. Phelps had a consultation of several hours last night to agree upon the plan to be pursued by the democrats in the reapportionment suit to-day in the Chancery court. It was decided that the attorney-general should first ask permission of the court to file an amended answer. This will be the first matter argued, and in the event of the court refusing to admit the amended answer a petition of William M. Bines asking permission to file a cross bill and be made a party defendant will at once be presented. In case this is granted the cross bill and answer of William L. Bines will follow in due order, and the arguments be made on the legal points then fully presented by the respective sides. Attorney-General Moloney is not expected to make his principal argument until to-morrow, as it is thought most of to-day will be consumed in the preliminary discussion.

GENERAL RANDALL HAS HIS SAY

Commonwealer Leader Talks at Elkhart—The Authorities Do Not Interfere.

ELKHART, Ind., May 14.—Gen. Randall talked "good roads and death to interest-bearing bonds" to the people of Elkhart yesterday, and the police did not interfere with him. The audience was not admitted to the camp. Visitors were kept out by a picket fence and half a dozen officers. They stood close to the fence in the hot sun and for more than an hour listened to Randall. Elkhart's list of populists have taken good care of the army. Yesterday they sent provisions and a preacher to look after the spiritual welfare of the "wealers." There are some differences between the city and county officials as to providing food for the hungry men. Populist farmers of Olive township have promised to look after the industrials if the city does not. The provisions will come in by private contributions. The march to Goshen will begin at 9 a. m. Gen. Randall expects to reach Decatur, Ind., Saturday.

IN A RELIGIOUS MOOD.

The Coxy Crowd at Hastings Listens to a Preacher—Kelly Moving On.

HASTINGS, Neb., May 14.—The Gannon-Bennet regiment of the industrial army is still in camp here, but expects to leave for St. Joseph to-day. Yesterday fifty of the men attended the First Congregational church in a body, and in afternoon a Baptist minister spoke at the camp.

MOVING ON THE TRAIN STEALERS.

Marshal and Deputies Will Endeavor to Arrest "Wealers" in Wyoming.

GREEN RIVER, Wyo., May 14.—Judge Riner, United States district judge for Wyoming, issued an order commanding S. L. Sheffield and other leaders of the Oregon contingent of the commonwealer army to surrender at once to the receivers of the Union Pacific the train which they captured at Soda Springs, Idaho, Saturday, and authorizing the United States marshal for Wyoming to arrest Sheffield and Col. R. D. Breckinridge, who are in command, and bring them to Cheyenne to answer to the charge of contempt of court. A marshal and a posse of ten deputies have left Cheyenne on a Union Pacific special train. Should there be any resistance on the part of the army the marshal will at once ask the President to have troops stationed at Fort Douglas and Fort D. A. Russell to be in readiness to assist the marshal in making arrests.

Trouble Feared at Hyattsville.

HYATTSVILLE, Md., May 14.—Hyattsville is thoroughly aroused over the presence of 500 Coxeys who are encamped in the picturesque grove known as Little Spa, just east and outside of the town limits. Serious trouble is expected at any hour, and three companies of volunteers were organized. The citizens are determined to drive the commonwealers out of the neighborhood and are prepared to use drastic means to accomplish that end.

Industrial Leader Arrested.

PHILADELPHIA, Pa., May 14.—Michael D. Fitzgerald of Lynn, Mass., of the New England industrial army, Lani Kalangraff and Joseph Wembloth, both of this city, were arrested last night for holding a socialistic meeting and are locked up in jail. The addresses called on the people to tear down the government and disperse the militia and set the red flag waving above the white house.

Galvin's Men Coolly Received.

GREENSBURG, Pa., May 14.—Galvin's commonwealer army is resting on the green at Electric park, a high knoll overlooking the town. The army was met by the mayor and chief of police, escorted to the park and instructed to stay there until ready to leave town. The reception of the army here was rather cool. The advance agents have thus far been unable to procure any provisions.

COAL MINERS ARE CONFIDENT.

Think the Operators Will Be Forced To Come to Their Terms.

CLEVELAND, Ohio, May 14.—The vanguard of the army of miners, coming to Cleveland to attend the big conference between operators and miners tomorrow, pitched its tent yesterday. The men express the conviction that the conference will leave their affairs in a better condition than it found them. Delegates represent the mining districts of Ohio, Illinois, Indiana and Pennsylvania. None of the operators have arrived yet, but numbers will come in the morning. The miners will have a conference to-day. It is said that twelve of the Pittsburgh operators who refused to attend the conference have engaged rooms and will be here.

It is said if the operators of other states stood out against a settlement the Ohio operators would endeavor to have their men resume work at the old rate, or 70 cents a ton, under an agreement with President McBride that the miners in other states should not return to work until they got what they asked for.

PEORIA, Ill., May 14.—The American Glucose company has closed its big factory in this city, and operations will certainly not be resumed until a settlement of the coal strike. Three hundred men are thrown out of employment.

DES MOINES, Iowa, May 14.—There is little doubt now that the Des Moines miners will all go out. There will be a mass meeting this afternoon at which striking miners from other places will be present. The Des Moines operators are anxious to prevent a strike, as the suspension of work in the mines farther east gives them a larger market for their products. The miners say if they strike 700 men will be out of work.

DENVER, Colo., May 14.—It is said the striking coal miners five miles from Trinidad have threatened to destroy a bridge which spans a large gulch midway between Trinidad and the mines. To guard against the contingency Marshal Jones deputized twenty marshals.

STRIKERS IN AN UGLY MOOD.

Lively Fusillade Narrowly Averted at Corona, Ala.

BIRMINGHAM, Ala., May 14.—Officers went to the mines of the Virginia and Alabama Coal company at Patton early yesterday and arrested a negro miner, Adolphus Brown, and carried him off to Corona. He had been murderously assaulted by a negro striker, James Ridgeway, a few days before, and had caused Ridgeway's arrest. The arrest of Brown was caused by the strikers in the way of reprisal. During his examination in the police court a collusion between the two factions was narrowly averted, but finally matters quieted down. Several arrests have been made.

Railway Union to Go Into Politics.

INDIANAPOLIS, Ind., May 14.—The Empire theater was packed yesterday with railroad men to hear President Debs and Vice-President Howard of the American Railway Union. Vice-President Howard made a special point of the fact that the American Railway Union was going to take a hand in politics. This announcement was greeted with much applause. He said the union would be supported in politics by the Knights of Labor, and the Farmers' Alliance. Resolutions were passed indorsing the industrial army.

Hill Looks for a Settlement.

ST. PAUL, Minn., May 14.—Another conference is to be held between the officials of the Great Northern company and the employees' committee, and Mr. Hill expresses the greatest confidence that the result will be satisfactory all around. Organizer Hogan of the union, however, does not talk as if a settlement could be easily reached. He claims the railroad has violated its agreement. The men say that unless their demands are granted they will tie the road up to-day.

Coke Operatives Will Not Confer.

SCOTTDALE, Pa., May 14.—The general managers of all the coke companies say positively the coke operators will not attend the convention at Cleveland Tuesday, nor will they have any representatives at the convention.

Laps at New York.

IT HAS SUFFERED THROUGH GROVER.

FIRST DISTRICT MADE POOR BY DEMOCRACY.

Contrast of Its Present Condition with the Past—Workingmen of the Cities Are Tired of the Idleness Brought On by Tariff-Tinkering—Many Mills Closed.

Two columns on First district politics appeared in Saturday's Inter Ocean. The signature of a staff correspondent who was here Thursday appeared below, among other things the dispatch says:

The thriving manufacturing cities of Racine, Beloit and Janesville, built up under the favoring conditions of a protective tariff, have suffered very much in the past year and in the April elections the voters in each of these cities expressed their contempt for the democratic party by electing republicans to office.

Business men who have been democrats say that they have had enough of their party. They indorse the sentiment of the Mississippi lumbermen who had done a good business with the Fish Brothers Wagon Company. When they shut down on their orders the Mississippi Democrat wrote: "We have been wanting to get control of this government for the last thirty years, and now that we have had it for six months we'll give it up to you republicans without money and without price, for it's too big a contract for the democratic party."

Mills All Shut Down. Hardly a mill in the First district is running full time. Good authorities say that not more than 10 per cent. of the wages were paid in Racine in the last year that were paid the year before; that from an average pay roll of \$250,000 a month Racine had in the last twelve months not averaged more than \$25,000 a month in wages paid to the men.

The Racine woolen mills, Blake & Co., had never known the necessity of closing in thirty years until last year, when they closed in December and remained closed until February. When the mills resumed operations the employees offered to accept 10 per cent. reduction in wages and some of them suggested a 20 per cent cut. They understood the necessity for such a move and made it voluntarily.

While the democrats of the ways and means committee in Washington refused to hear any arguments from the woolen manufacturers, or any suggestions as to what the tariff should be, Mr. Henry Latzko, the large manufacturer of woollens in Austria, was invited to give his views to the committee, and the government published his suggestions as a campaign document for the free traders. The employees of the woolen mill at Racine received copies of this pamphlet, but they do not see why the democrats want to go to Austria to learn what duty should be paid by the manufacturers there for selling their goods in America, or why an Austrian manufacturer should be allowed to suggest the price to be paid to American workmen in American woolen mills.

A Striking Parallel. These unemployed think it would have been as appropriate for President Lincoln to have asked Jeff Davis what kind of shot should be fired at the Confederate armies during the war and whether he would have preferred blank cartridges. There is no ray of hope for the wool men in the new tariff amendments, for wool remains on the free list and these employees are waiting for further cuts in wages or loss of work.

In Janesville the change has been of the same character, and has affected the voters in the same way. Lewis Bros., knitting factory, that manufactured fancy underwear for a special trade, has been closed since January; the two cotton mills, which employed three hundred operatives, and never knew an idle time or disturbance in seven years, were compelled to close in September and remain idle until January. Then they started up at 10 per cent reduction of wages and are now running and piling up their product. The company has \$500,000 invested and has desired to keep the mills running to prevent the destruction of the machinery from rust while remaining idle and to give operatives work.

The operatives appreciate the situation and are willing to accept the reduction of wages in order to continue their work. Two furniture factories closed and one of them remains closed now. The other has been opened a short time at reduced wages. The

Shepp's World's Fair Photograph.

SPECIAL—May 14.

For a short time those who failed to secure regular coupons can get any issue or issues of Shepp's World's Fair Photographed, by presenting one copy of this advertisement, together with 10 cents for each part desired, at the Gazette office. The supply in several numbers is nearly exhausted. Early orders are advisable.

Janesville Machine Company, like the New Doty works and other factories, tell the same story.

Beloit Is Stricken.

In Beloit the Fairbanks-Morse Company with 300 employees, has had to cut wages; the wood-working machine shops, with 300 men, have had to run on short time; the iron works, the Thompson plow works, and other shops have had to reduce time and wages.

All these laboring men in the factories of Racine, Beloit and Janesville have felt the hard times more than the farmers, but the dairy men have learned that a good home market makes butter worth 30 cents while a home market destroyed to secure a foreign market cuts the price of the best creamery butter to 15 cents a pound.

Rock county is also a big tobacco growing section, and the farmers who have made money in raising tobacco under protection are now holding their 1893 crop, waiting for buyers who do not come. The market has dropped out of tobacco, and the growers cannot sell their crop at any price. Whether the Sumatra wrapper would compete with the Wisconsin tobacco or not is the question with these growers, however much it may be with the free-trade theorists. The condition of no market and sheds full of last year's tobacco confronts these growers that they hold the democratic party responsible for destroying their market. They are now waiting for an opportunity to go to the polls and help destroy the democratic party.

But a Few of the Reasons. These are some of the reasons why the republicans of the First Congressional District of Wisconsin expect to have a bigger majority next fall than ever before, and they also account for the slow market in democratic politics in the district. The democrats have little to say except that they would like to be left alone for awhile.

A prominent banker of Janesville admitted to me this morning that he had voted for Cleveland because he believed in him and his policy; but, said he: "The Fifty-third congress. I still believe that Cleveland might do something and come out fairly well if he had not this jarring congress to eternally damn the democratic party and everybody connected with it."

The Germans in the district are back in line with the republicans, and there is no danger of their staying away this year. They have had enough of the democratic party and are anxious to again vote their sentiments on the tariff and money questions.

POLICE CALL WAS A SUCCESS.

Officer Was the Only Thing Lacking to Make It Work.

Electrician Kline's police call machinery was given a practical test Saturday evening and worked like a charm. All that was lacking was a policeman. A couple of fellows got into a fight near High street, quite a crowd congregating. An excited individual, who had noticed a police box on a pole near by, returned to the box and sent in the call. He waited patiently for the patrol wagon, and after a few minutes patient waiting he pulled the lever again. Kline was in the clerk's office and telephoned to Frederick's livery stable and was told that a fight was in progress on the corner, and that a policeman was wanted. The fight was fought to a finish and the crowd dispersed with no arrests.

PLOT TO DO MURDER MAY BE EXPOSED.

LIEUT. COL. RANDALL HAS IMPORTANT WORK.

Sensational Charges—The Maney Court Court Martial on Which He Will Sit is the Strongest That Has Been Convened Since the Trial of General Swayne.

Lieutenant Colonel George M. Randall will help to investigate one of the worst scandals that has marred the army's record for years.

Sensational charges are made in the Maney case.

"The belief in high quarters appears to be that a conspiracy had been entered into by certain officers of the regiment to be rid of the presence of Captain Hedberg at any cost, and that this was supplemented by an agreement to screen Lieutenant Maney and hush the matter up if possible so that justice should not be done. It is sincerely to be hoped that after a thorough sifting of the matter the officers now under suspicion may be found guiltless of so heinous an offense, but the exoneration must be thorough to satisfy the authorities who have taken it in hand. If it is found that it is possible to hound an officer out of the army on pain of death the war department is determined to know it, in order that an example shall be made that will act as a deterrent of such crimes for many years to come."

This is the declaration of the Army and Navy Register in the course of a very strong column editorial. Chicago papers speak of the court which will try Lieutenant Maney as the strongest that has been convened since the trial of General Swayne in 1872. The tribunal is made up as follows: Col. E. C. Mason, 3d Inf., J. C. Bates, 2d Inf., C. C. Byrne, A. S. G., Lieut. Col. H. S. Hawkins, 23d Inf., Dallas Bache, D. S. G. W. L. Kellogg, 5th Inf., J. F. Kent, 18th Inf., G. M. Randall, 8th Inf., Maj. J. M. Hamilton, 1st Cav., Wirt Davis, 5th Cav., Capt. J. M. J. Sanno, 7th Inf., A. G. Forse, 1st Cav., H. G. Brown, 12th Inf., Lieut. Col. T. F. Barr, D. J. A. G., judge advocate of the court.

To the Public.

I desire to inform the public at large and the citizens of Janesville, in particular, that Crystal Springs is now open to all who desire a brief relaxation from business and a cool, pleasant retreat from the heat of summer. I have spared no expense nor labor to make this resort for pleasure seekers attractive and pleasant. The long range of vision from my new Indian spring presents a rural picture not to be found in any spot within many miles of Janesville. The water in full gush from this clearest of cold springs is the best to be had in the country.

I assure all who may wish to patronize me that everything shall be kept orderly, clean and free from rowdiness of all and every kind. Myself and assistants will do all in our power to make this the plus ultra of picnic resorts. My steamer the Columbia, has been lengthened and put into A1 condition. Her speed has been noticeably increased and the trip up and down is made more quickly and comfortably. I cordially invite and solicit the patronage of the pleasure seeking public reiterating my determination to please my patrons.

AS SEEN BY JERE MURPHY

After his army has floated up the Ohio river we suppose Kelly will order it to slide up the mountains.

The Wilson bill would also be in better form if it had spent the time in Mexico after it passed the house.

Governor Tillman appears to have been mostly correct, after all, when he insisted that the South Carolinians would have to drink state whisky or no whisky.

The strike against the Pullman Car company can hardly succeed unless it has the sympathy of the porters, and the sympathy of a porter is beyond the means of even skilled mechanics during these democratic times.

The democrats are showing enthusiasm over that special congressional election in Ohio which gives promise that among the possibilities for 1896 is P. J. Sorg on a plug tobacco platform.

It is a matter of congratulation that the commonwealth armies are for a large part made up of merely hungry people instead of the bloodthirsty, uncontrollable spectators of University base ball games.

The uninterrupted run of senatorial courtesy for the past few days should be accepted as a token that Senator Turpie is making an earnest effort to break himself of the pernicious habit of mixing dynamite with his whisky.

Before the summer is over we shall see the cuckoo senators and free trade organs tenaciously attempting to convince the public that the administration tariff bill is almost as desirable as the McKinley law from a tariff-reform standpoint.

We are pleased to observe by a personal note in the Madison Democrat that there is no truth in the report that our genial friend, State Labor Commissioner Dobbs, was about to enlist in the Coxe contingent of the army of the employed.—Madison Journal.

LOWER FIRE RATES FOR JANESVILLE.

CITIZENS' INSURANCE ASSOCIATION BEING ORGANIZED.

Willard T. Fales in the City To Form a Branch of the Concern That Is Now Operating in Several of the Western States—Agents Are Doubtful.

The Citizens' Fire Association.

That's the name of a new organization which proposes to reduce the rate of fire insurance. Willard T. Fales, state agent for the association, reached the city to-day and is soliciting membership. The association takes in the states of Minnesota, North Dakota, South Dakota, Illinois, Wisconsin, Iowa, Nebraska, Kansas and Missouri. The headquarters for this state are at Stevens Point.

The Citizens Fire Association is a union of towns formed to secure a reliable record of the fires in the places associated as a basis for fire insurance rates, to seek relief from improper classification of risks and from bearing the burden of the millionaire losses of the large cities; to enact stringent fire inspection ordinances; to prevent incendiarism and to protect and assist each other in all measures pertaining to fire insurance. The local management is vested in the advisory boards.

"Wisconsin is not a good state for Mr. Fales' work," said a local insurance man today. "The companies have lost a good deal of money in Wisconsin during the last two years, and are not supposed to stand much dictation."

NOT AS THEY ARE SPELLED.

Some Names That Are Queerly Pronounced by the English People.

The absurd and sometimes extraordinary difference between the spelling and pronunciation of English names has been often commented upon. Several lists have been published, but they are by no means complete. The following, it is believed, are, for the most part, new: Woodnesborough, Winsbro; Woodmancote, Woodmuckett; Wymondham, Windam; Yaddethrope, Yalthrup; Gainsborough, Gainsber; Glencoil, Lenkerrin; Grassinton, Girstun; Haddiscote, Hadsker; Gunthwaite, Gtufit; Eskdale; Ashdale; Brampton Biarn. Brawn; Brighthelmstone, Bartun; Hallahon, Horn; Meddlethroe, Threlthrup; Marylebone, Marrowbone; Ulrome, Ooram; Uttorester, Tuxiter; Rampisham, Ransom; Pevensey, Pinsky; Coxwold, Cookwold; Crostwright, Corsit; Holdsworth, Holder; Skiddaw is Skiddy; Kirkcudbright, Kircobry; Ikley, Ethalia; Hawarden, Hard'n; Alford, Artfold.

Strachan should be pronounced Strawn; Colquhoun is Koohoon, the accent being on the last syllable; Beauchamp is Beacham; Bethune should be pronounced Beeton, and in Abergavenny the "av" is not sounded. Menzies is pronounced Mynges, Knollys as Knowls, Sandys as Sands, Gower as Gorr, and Milnes as Mills. Dalziel should be pronounced "Deal," with the accent on the first syllable. Glamis is Glarms; Geoghegan should be pronounced Gaygan, and Ruthven is Riven.

Strange Surroundings of a Grave.

On the banks of the Castleman river, in Pennsylvania, is a sight well worth going to see. A short distance from the river, at the foot of the mountain, six poplars are growing, the place inclosed being in the shape of a coffin. For about six feet from the ground the trees have a common trunk, or rather roots, as it seems as if the six trees in the inclosed space had all united solidly, and had grown out of the ground, carrying the earth above them up along to the height named. Climbing on top of this common trunk, it is found that these poplars must have been planted around a child's grave. The inclosed space is about four feet long and the green grass is growing in the earth there. On one end is a gravestone with an inscription on it, which, however, is worn by time. It is unknown by whom the grave was made.—St. Louis Globe-Democrat.

QUITE A FAD.

The Appendicitis Habit the Latest in Surgery.

"Somebody in authority," said a woman one day last week, "will have to interfere with this growing notion that an operation for the removal of the vermiform appendix is desirable in all cases. I was much shocked not long ago to find that my son, a young man of 22, had joined with three of his friends in an agreement to undergo the operation. The other three young fellows actually did submit to it, although not one had ever had any symptom of appendicitis, nor had any member of his family ever so suffered. Of course, when my boy's turn came he had to let us know, and his father and I interfered to some purpose. All the young men got through safely, though it was serious for each, and in one case proved a dangerous shock."

"Physicians recognize what is known as the 'appendicitis habit,' that is, some persons have slight attacks after eating, the effect soon passing away, however. Such persons are liable constantly to the danger that these slight attacks will take on a more serious form, making the surgeon's knife a necessity, and it is probably safer that these persons should submit to an operation for the removal of the cause of the trouble, while free from inflammation and pain. It will be wise for persons not so disposed to weigh the matter well under most conservative opinion before acting."

A BIG SEWER.

Philadelphia Proposes to Erect a \$1,500,000 Conduit Upon Piles.

"Philadelphia is going to give the world an excellent object lesson in sewer building," said Francis Heslop, of Pittsburgh, to a reporter. "They are building a large sewer on piles, and if they succeed in their undertaking, which is to cost \$1,500,000, they will have done a great deal toward solving a very difficult problem. This new sewer runs along the bed of the Aramingo canal, which is too soft to hold the great weight. To get over this difficulty piles of yellow pine twelve inches square are to be driven down to rock bottom about three feet apart. At the top of them a heavy plank floor will be placed, and on this a nine-foot sewer will be built."

"The undertaking has been discussed by engineers throughout the state, and opinions differ very much as to the result of the undertaking, which in several features appears to be daring in the extreme. In this age of engineering advancement it is absurd to say anything is impossible, and the men in charge of this singular work are likely to be able to convince the world that after all there is something new under the sun."

WHAT A MISTAKE!

Mrs. Wilcox Suffered Years Thinking There Was No Relief.

[SPECIAL TO OUR LADY READERS.]

One night in a terrible snowstorm a man walked in a circle till daylight because he thought that he was lost.

He had been tramping all night within a stone's throw of his home.

There is a woman in Philadelphia who lived for years in a daily circle of suffering, because she thought there was no relief.

Her suffering was caused by female weakness in its worst forms. She had pain in her back and loins, great fatigue from walking, leucorrhoea, local inflammation, and a frequent desire to urinate.

All this time relief was close at hand, and she had only to accept it with the same faith that has saved thousands of others. Every druggist had it.

Lydia E. Pinkham's Vegetable Compound cured her of all weakness and disease, and she is now a different woman. This woman is Mrs. Walter Wilcox, of 736 West Street, who advises all women who suffer so from female weaknesses to try it and be cured. It cures kidney trouble in either sex, expels tumors, removes backache, and invigorates the system.

HE SEES THE LIGHT.

Here is the hopeful view Editor Bloom, of Fond du Lac, has of the democratic party:

"The editor and owner of the Daily Journal does not feel that support of democratic measures as represented in the deeds of the present congress is compatible with his best judgment. The conduct of the party leaders has convinced him in fact, that democracy is dead. There seems to be no longer a large and patriotic spirit among those who represent the principles. If the Journal were to continue, it would, of necessity, continue as an opposer of the party of mismanagement. The writer believes the present congress is a shameless, incompetent aggregation of politicians who see nothing larger than selfish interests."

ANOTHER BOND SALE

The necessity for another bond sale is rapidly approaching, and the democrats might as well be making up their minds to face such an additional misfortune for their party with as little profanity as possible.

The treasury gold fund, which was well above the \$100,000,000 line a few weeks ago, is now down to about \$90,000,000. It cannot safely be allowed to shrink much farther than this. In the latter part of January a bond sale was determined on, and the sale was effected in February. About \$50,000,000 in gold was obtained at that time. At least as large an amount will probably have to be purchased before the present month ends, or early in June.

FARMERS BEAR THE BRUNT

The manufacturers have not been forgotten by democrats at Washington, but the manufacturer, after all, is treated with more consideration than the farmer. The latter is made to understand at the outset that he has no rights which the democratic party feels bound to respect. He was left without a shred of protection to compete with the wool producers of South America and Australia whose land costs them nothing or but little in comparison with what the American farmer is obliged to pay. Tobacco raisers get equal attention and will be glad to learn that vast quantities of Sumatra leaf are piling up in New York bonded warehouses waiting for the Wilson bill to open the doors.

Coxey's army should have taken a lesson from the sugar trust and other down trodden syndicates. They didn't march to Washington with painted banners. They simply sent agents there in a quiet way to tell the democratic senators what would satisfy them.

What a perfect parallel between Colonel Breckenridge and the present Wisconsin administration. The penitence of both is seriously discredited by the fact that they did not confess their sins until they were found out.

That was a good investment—the sugar trust's contribution of \$500,000 to the democratic campaign fund. It is estimated that the trust has made fully \$25,000,000 from trading in sugar stocks since congressional action on the tariff began.

Mr. Cleveland must be interested in the strangely general habit which democratic conventions have of adjourning this year before acting upon resolutions indorsing the administration.

Funny, but the democratic party always seems to come into power just before the country hits a streak of the worst kind of bad luck.

Medicine That Cures Worry.

Don't fret because you paid two prices for your last fine shoes. Look around next time. Take a peep at the special line shown by Brown Bros.

Lincoln made in several different apes and styles of last, in cloth tops and patent leather quarters, seven buttons and regular buttons and sold for \$3.50 to \$4.00. If you don't find them equal to what you have paid more money for they will make you present of a pair.

LAY IN A PEST HOUSE HIS NAME UNKNOWN

ARTHUR MARSDEN MOURNED
AS DEAD.

Disappeared Suddenly Six Weeks Ago—
Thermometers Show 96 Above—
No Asylum Party on Friday—
Pastors Approve of Mayor Thorough-
good's Order—Brief Local News
Notes.

A sudden disappearance; four weeks in a pest house, and a providential return to home and friends. This has been Arthur Marsden's lot since March. The boy is Supervisor Henry Marsden's son, and would have graduated from Rush Medical College in Chicago this spring. He left his seat in the midst of the final March examinations, said he felt sick and was going home. An hour later he had disappeared as effectually as if the earth had swallowed him. His parents in Edgerton were almost crazy. They searched high and low, but the search was fruitless. The boy was given up for lost, but to-day he reached home very weak and emaciated. He knew nothing, he says, until he came to his senses a week ago in a small pest hospital at Savanna, Ill. After his discharge he got as far as Boscobel, then ran out of money and had to write home. He is fearfully shrunken by his illness. Edgerton is having a jubilee over his return.

We want to say just once more that there is no seven button ladies shoe in Janesville like those we sell for \$2.48 that in any way compare with ours. Any statement contrary to this is a misrepresentation pure and simple made for the purpose of misleading the people. We are prepared to prove this beyond a doubt and invite investigation. Brown Bros. & Lincoln on the bridge.

THOMAS WELSH, familiarly known as "Budget" Welsh, was before Judge Phelps this morning confronted with the charge of being a common drunkard. Thomas could not convince the judge to the contrary, and therefore will be compelled to board with Sheriff Bear for thirty days.

LAST Saturday night closed the heaviest week's sales we ever had since we have been in business. Telling the truth about our shoes and prices, and not misrepresenting facts in our advertising must win. Becker and Woodruff on the bridge.

ASHES WORTH \$3000 ON ELLIEN'S FARM.

FIRE DESTROYS A HANDSOME
DWELLING HOUSE.

Hired Man Made Delirious by the Heat and Exhaustion—Owner Arrived Too Late To Save His Home From the Flames—Insurance Was Only Partial.

The farm house of Andrew Ellien, on section 17, town of Rock, was totally destroyed by fire Sunday, involving a loss of some three or four thousand dollars.

The fire was first discovered at about 11 o'clock in the morning by Mrs. Ellien, who was alone, her husband having gone to the creamery. The fire was then in the roof. Mrs. Ellien ran to the road, expecting to see her husband returning. He was some distance away but noticed her signals and realizing that something was wrong whipped his horses into a run. He reached home too late to save the building. George Blunk and his hired man were also attracted by the fire and reached the scene in time to assist in saving considerable of the contents, removing stoves, the organ, and much of the furniture and clothing on the lower floor. William O'Leary, Mr. Blunk's hired man, was overcome by the heat, and became violently delirious, being in this condition all last night. He worked hard in removing household goods, and was completely exhausted when the fire became too hot for the men to enter the building. Mr. Ellien had an insurance of \$1,000 on his house and \$200 on the contents. The building was a large one, the main part being 16x24, with two additions of the same size, and one addition 16x16, besides a kitchen and woodshed. The fire is supposed to have originated in the kitchen part, from an overheated pipe. Mr. Ellien is an old settler of the town, and is well advanced in years, he celebrating his eightieth year last Saturday.

INSANE TELEGRAPH STUDENT
DEMANDS BRITISH AID.

T. L. Wilson, a Young Man of Considerable Means, Becomes Violently Deranged and Drives Other Boarders into the Street—When Jailed He Applies to the Mayor.

T. L. Wilson, a student in the school of telegraphy, is confined in the jail, violently insane. Wilson's home is in Canada. He has been here some time, and is a fine appearing young man having considerable money. Until Saturday evening he had been very quiet and pleasant, but suddenly he began to act very strangely and it was seen that he had lost his reason, presumably on account of hard study. He commenced quarreling with his associates at his boarding house, 151 East Milwaukee street, and finally drove every one from the house. Sheriff Bear was called and gave him quarters at the jail. Wilson had fifty dollars in money on his person, besides a book showing he had eleven hundred fifty dollars in the bank in Canada as well as other property. Yesterday he wrote a letter to Mayor Thoroughgood, stating that he was a British subject, that he had been arrested and confined in jail without warrant and without word of mouth, and he proposed holding the government responsible. Determined not to be swindled, he insisted on taking the numbers on the bank bills he turned over to the sheriff. Wilson will probably be sent to the asylum at Mendota and the Canadian authorities notified accordingly.

RANGE NOTES CAUSE A LAW SUIT

People Who Bought Stoves on Time Now Refuse To Pay.

Enough wrought iron ranges to cook every dinner in the state were sold to Rock county people.

"Anything bought on time is cheap," seemed to be the doctrine. The ranges were bought on time.

Notes were given in payment and everything went well. Notes have one objection, however. They will come due. These range notes were much like others, and the date of payment has finally come around. Payment is demanded, but the people whose names are signed say the ranges were not as good as they expected. They have hired Smith & Pierce to make this declaration in court, while the range company are represented by Silas Menzie, of Beloit and Sutherland & Nolan of this city. James Finley, of the town of Beloit, is the defendant in the test case and his note amounts to \$69.

PRaise the Shaw FOR MANY MERITS.

FAMOUS PIANISTS PRAISE THE GAZETTE PRIZE.

Everybody Who Has Examined the Instrument at S. C. Burnham & Co's Says the Things Said in Its Favor Were Justified—Conditions of the Contest.

What is thought of the Shaw piano by pianists, vocalists and teachers. This is not hard to find out. When The Gazette chose an instrument it picked out the best to be had. The girl who wins this instrument may well rejoice. Here are a few statements published in St. Paul papers by those who have used the Shaw:

OSCAR L. LIENAU, tenor singer and teacher of the voice writes:

ST. PAUL, MINN., AUG. 2, 1892. GENTLEMEN: I am extremely pleased with the Shaw Piano, which I purchased of you. I have used it for some months and consider it a superior instrument. Its clear full tone and elastic touch is a delight not only to myself, but to my many friends, its sweet singing quality being especially noticeable, and I shall be pleased to recommend it to my pupils, etc., I am, yours respectfully, OSCAR L. LIENAU.

Frederick Leavitt, the expert piano tuner:

ST. PAUL, MINN., MAY 1, 1892. GENTLEMEN: As compared with other first class instruments, the Shaw piano has the charming characteristics of each—all in one. Not a break in the scale. No rattling in the action. Never harsh nor metallic in tone. Stays in tune. Such is my admiration for the piano that I would not trade, "even up" for any upright made. My own Shaw has not required any attention during the past year and is in almost perfect tune now. Yours respectfully, FRED. LEAVITT.

Professor William Manner, organist at the Cathedral and leader of the German Mannerchor Singing society says:

ST. PAUL, MINN., MAY 6, 1892. I admire the Shaw Piano very much. Their construction is most excellent, the tone is round, rich and mellow, and altogether I consider them one of the very best pianos made today in this country. I can cheerfully recommend them. Respectfully yours, W. MANNER.

Those who wish to learn for themselves the quality of piano offered by the Gazette are urged to visit S. C. Burnham & Co's store. Several patterns of the Shaw are there shown. These instruments rank in the markets of the country just as Chickering's, Steinways and Knabes, the four occupying first place. Everybody who has seen the Shaw piano is enthusiastic in its praise. It has a pure ringing tone, and its action is very fine. These qualities are what would be expected of a Shaw piano and The Gazette made no mistake in choosing that instrument.

Friends of contestants show a lively interest in the success of their favorites and votes are coming in rapidly. New subscribers should be reported as fast as secured, but coupons should be tied in bundles of one hundred each and kept until the day the competition closes. Votes have been cast up to date, for the following candidates:

Monday and start it again Tuesday and claim the premium offered.

The polls will close at 9:00 p. m. June 30, but votes handed in before this will be duly credited. The contest will be conducted strictly "on the square." No partiality or unfair advantage will be taken or allowed in any case.

WOMEN AND LIONESSES.

Same Qualities Which Make a Good Husband Make a Successful Trainer.

John Penji, the trainer of the Hagenbeck Lioness, Helene, is a true philosopher, and he has a theory that will bear inquiry. He says that lionesses are like women and that a lioness tamer worthy of the name must be a man who understands womankind.

One does not usually go to an animal show for philosophy, but Mr. Penji has been in the business for twenty years, is married, and his life in both respects has been successful.

"The trainer of wild beasts," he said, "must be a philosopher, or else he is a failure. He must have reason for everything he does and he must do very few things that are foolish."

"Once there was a lion tamer somewhere who thought that because he could make his beast jump through a big hoop, that he could make him do anything. One day, without previous training, he tried to make him open his mouth and let him put his head into it. That was folly. No philosopher would have dared to do such a thing. He never did it again. History records the fact that after the lion had received the trainer's head into its mouth, the animal neglected to return it."

Continuing his theory of the subject, Mr. Penji said: "The nature of a lioness and that of a woman are almost identical. Treat a woman with honesty, confidence and nobility of character and she is your friend. She will even sacrifice self for you, and the same is true of a lioness."

"The lion tamer must show himself as upright, honest, painstaking and of even temperament. He must be gentle yet firm, and let her see by his actions that he is fair-minded and painstaking, that his interests are hers, and before he has been training the lioness one year he will see that, like a woman, she will go out of her way to do him a kindness, which will effect him, if he is an honest-minded man, as though some woman had done something for him. He must not, however, attempt to go into the business unless he has a thorough knowledge of his temperament. This fact, one might say, is also good advice when contemplating matrimony."

"It is easier to get married than it is to become a lion tamer, and sometimes it is about as risky. But I hold that if there was some provision in this world which would make every man who is contemplating matrimony go through a course of taming a lioness there would be fewer divorces and very many better husbands. One of the reasons of this is that training a lioness teaches a man emphatically that while he has a will of his own he must to a certain extent bow to the wishes of the other."

"A lioness is like a woman in this respect; when she will she will, and when she won't she won't. Once a lioness makes up her mind not to do anything you can no more force her to change her mind than you can upset the elements, and any one who attempts to do so makes a mistake as an animal trainer as well as injures the good qualities of his lioness."

Peter the Great Pulled Teeth.

Peter the Great particularly delighted in drawing teeth, and he strictly enjoined his servants to send for him when anything of that sort was to be done. One day his favorite valet de chambre seemed very melancholy; the czar asked him what was the matter. "Oh, your majesty," said the man, "my wife is suffering from the greatest agony from toothache, and she obstinately refuses to have the tooth taken out." "If that is all," said Peter, "we will soon cure it; take me to her at once." When they arrived, the woman declared that she was not suffering at all; there was nothing the matter with her. "That is the way she talks, your majesty," said the valet; "she is suffering tortures." "Hold her head and hands," said the czar; "I will have it out in a moment." And he instantly pulled out the indicated tooth with great dexterity, amid profuse thanks from the husband. What was Peter's indignation to discover a little later that his valet had used him as an executioner to punish his wife, who had never had an unsound tooth in her head.—Argonaut.

Our Original Troy Pound.

In 1828, when Adams was president of the United States, congress authorized or appointed a commission "to bring to this country a Troy pound adjusted to the British standard." When the commission returned the president received the package and broke the seal in the presence of the distinguished men of America. This original weight standard is now in the mint at Philadelphia, and is not regarded as being of ideal accuracy by any means. It is made of a very poor quality of brass, is rough in texture and hollow. According to a law now in force, each state is entitled to a copy or duplicate of this standard.

In Paris.

The most productive market-gardens in the neighborhood of Paris are where the gardeners hire the right to put soil upon a piece of barren land, providing in their lease for the right to take away the soil after they give up the occupancy.

There is a mountain in Oregon which is slowly moving into the Salmon river. It will in course of time dam the stream and create a large lake.

The new Vanderbilt houses are expressly fortified against anarchists. Hot water and rifles are provided in convenient places, ready for a garrison of servants to keep a mob at bay.

The possession of a genuine Murillo, representing the deathbed of St. Joseph, is claimed by Dr. John J. Caldwell of Baltimore. It is said to have been painted in 1610 for one of the churches of Cadiz.

A Florida physician, while dissecting a monster alligator, found a gold watch chain in its stomach. He does not undertake to say what had become of the watch or of the human skeleton that must have been swallowed with it.

By the explosion of powder with which two inventors at Frederick, Md., were experimenting, one of them, who had a full beard, was as closely shaven as though the barber had run the clippers through his whiskers.

There was once a man in Washington who, through bad habits, lost every faculty he ever possessed except the ability to write shorthand. That he retained and continued to make money as fast as he could drink it up by reporting debates.

Koch's tuberculin is now admitted by scientists to be a valuable diagnostic agent for the determination of tuberculosis in cows, but it is said, no records have been made so far to show that these animals are free from the disease after inoculation.

The inventors in St. Petersburg are asking the Russian government for patents on glass coffins. The two parts of the coffin box and cover are wholly made of glass, which by means of a specially prepared glue of lacquer can be hermetically sealed. A net of wire secures the coffin against breakage, and the price of the article does not exceed that of a wooden one.

JIBES AND JESTS.

Teacher—What is a right angle? Boy—Two straight lines around a corner.

"Does Flagston practice what he preaches?" "Great Caesar! No; he never gets through preaching."

"There are several young men in the car," remarked Mrs. Holdstrap, "but they can hardly be classed among the rising generation."

Actor—When I am acting I forget everything about me; I see nothing but my role; the public disappears entirely. Friend—I don't wonder at that.

"Is Tompkins henpecked?" "Is he?" exclaimed Potts. "I should say he is. He doesn't even dare to claim a full proprietary interest in his own rheumatism."

Charles—What did you mean when you told your father just now that there was only one thing you liked better than work? "Thomas—Loafing", of course.

Teacher—Who was the first man? First Boy—George Washington. Teacher—Next. Second Boy—Adam. First Boy, indignantly—I didn't know you meant foreigners.

"Who is the 'Co.' in your firm?" asked Smasher of his friend the grocer. "My wife." Ah, she's a silent partner, is she? The grocer rubbed his chin for a moment. "She ain't so all-fired silent, when you come to think of it."

Auntie—Does your new doll close its eyes? Little Ethel—Yes'm, but she is the most wakeful child I ever saw. She doesn't shut her eyes when I lay her down, as she ought to. The only way to make her go to sleep is to stand her on her head and shake her."

"If women got into congress," said Young Woody Witte, every one of them would want the last word.

"Possibly," replied Mrs. Pepperton, "but I don't think they could be any longer in getting around to it than some of the gentlemen who are now trying to make our laws."

TALES THEY TELL.

Referring to the fascinations of golf a London paper tells of a Scotchman, a retired minister of the kirk, who was deploring the tendency of the game to become a ruling passion, and also to induce bad language. "In fact," he said, "I had to give it up for that reason." "Give up golf?" exclaimed his friend. "No," said his reverence, "the ministry."

One of our best writers, tells that a little niece of his had been a very naughty girl and her aunt had had to punish her severely. When she came to say her prayers at night her little mind was full of wrath against her aunt, but yet the child did not quite like to leave her name out of her evening devotions, so she compromised matters by saying: "Pray, God, bless father and mother," etc.; then, after a long pause, she added, "and bless Aunt Julia, too—but not much."

Ward McAllister's statement that William D. Howells was not sufficiently posted concerning "society" to write about it, recalls the remark of a clerk in a Boston bank, when the once famous colored caterer, J. B. Smith, presented himself with a check he wished to have cashed. The clerk declined to pay out the money until Mr. Smith had identified himself. "What! don't you know me?" shouted the famous caterer. "I do not," said the clerk. "Well," said Mr. Smith, "I guess you never went into society much, I've catered for the whole of it."

Protestant Episcopal.

Three of the Protestant Episcopal dioceses of New York state have more than 1,000,000 inhabitants each, and one of the three, the diocese of New York, has more than 2,000,000. The diocese of Long Island is the most densely populated. It has an area of about 1,400 square miles, and a population of more than 1,000,000. The diocese of New York has an area of about 5,000 square miles, with a population exceeding 1,000,000.

The Dust Haze Above Us.

If there was no dust haze above us the sky would be black. That is, we would be looking into the blackness of a limitless space. When in fine, clear weather we have a deep, rich blue above us, it is caused by a haze. The particles in the haze of the heavens correspond with those of the tube in the kitescope, and the blue color is caused by the light shining through a depth of fine haze.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and is a portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood that the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force. Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with the organ among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, vertigo, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nerve is due to the fact that it is based on the foregoing principle. Dr. Miles' Restorative Nerve is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. HE LOVED ANOTHER.

But the Dear Girl Broke It to Him in Her Gentlest Manner.

"Oh, George, you love another."

Such were the words of a fair, pale girl as she clung to the arm of a tall, handsome man in the dimly-lighted parlor of her father's home.

He was such a man as women love, and this fair girl loved him, accordingly to the Detroit Free Press.

They had been sweethearts for months and the day was approaching when their plighted troth was to be redeemed.

Into her heart a doubt had come, and it had found expression in the opening words of this chapter.

"Darling," he said chidingly, "how foolish you talk. You know I do not."

"But you do, dear," she insisted. "I have been watching you and I have seen it."

"How could you?" he contended tenderly. "There is no one in all the world I love as I do you."

She gazed fondly into his handsome eyes, laid her soft, white hand carressingly on his rich brown hair, and whispered her words of admiration into his willing ear, until he was so inflated with pride that the buttons on his beautifully-fitting coat began to stretch their necks.

"How silly of my little girl to say her Georgie loves another," he smiled as he looked down into her sweet face.

She shook her head no less doubtfully than before. "Come, now," he coaxed, "tell me who this person is I love more than I do you."

She was silent.

"Tell me," he murmured, taking her in his arms.

"Yourself, George," she sighed hopelessly, for she was on to her Georgie, and she knew that such a love was unchangeable from the cradle to the grave.

It is a difficult matter, dear reader, for a handsome man to be in love with anything else, and don't you forget it, especially if you are a woman.

White vs. Colored.

There was a boy who was sent out by his father to sell some potatoes. He carried the bag around all day without a sale, and, on reaching home at night threw it down with the surly exclamation: "Nobody that I met asked me for potatoes. One fellow wanted to know what I had in the bag and I told him it was none of his damned business."

There was, in the same town a colored gentleman who went about bawling at the top of his voice: "Fish! Fish! Fish! Fresh Fish!"

"Shut up that racket!" said an angry dame at a window.

"You hear me, missy?"

"Hear you? You can be heard a mile away."

"Dat's what I'se hollerin' for. Fish! Fish! Fresh Fish!"

The colored gentleman was an advertiser—and sold his goods.—Hard-ware.

'Round too Much.

Pale with suppressed indignation Algernon McStab uncrossed his legs, rose stiffly, and turned up his coat collar.

"Glycerine McCurdy," he howled, "you have seen fit to sneer at me. You have accused me of having a wheel in my head. If I have, false beauty, it is at least a wheel that has run true to you!"

"Ah, yes," replied the young woman with a faraway look in her soulful eyes, "and yet I hardly want you for a hub, you know!"

Female Friendship.

Birdie McGinnis—"I'll have nothing more to do with Mollie Dusenbury. She played me a mean trick the other night at the ball."

Jennie Uptown—"What did she do?"

Birdie McGinnis—"She came up after the first dance and told me that my dress had split open down the back, so I sat against the wall all the evening while she danced with my feller. When I got home I found there wasn't anything at all the matter with my dress."

Did You Ever Meet a Truly Good Man?

No doubt you think you have, but we'll wager a dime or so I did not have the rheumatism. If he did, he swore occasionally, and no man can be truly good who swears occasionally. Health, nerve tranquility and morality are apt to go hand in hand. Painful spasmodic diseases like rheumatism and neuralgia ruin the temper, make one morose, peevish and rebellious. This is a sad fact, but it is none the less true. Drive away the pain, mollify the temper, restore tranquility of mind in cases of rheumatism and neuralgia with Hostetter's Stomach Bitters, an astringent and tonic of comprehensive nature and effect. It healthfully stimulates the kidneys, bladder, stomach, liver and bowels when inactive, and induces sleep and appetite. A very quieting effect, not an unnatural, stupefying one like that of an opiate, is produced by a wine-glassful before retiring. It is incomparable in malarial disease.

Kill Him.

That was the decision in the Prendergast case of the assassination of Mayor Harrison of Chicago. That is your verdict in regard to your hair providing you do not take care of it. If your hair has already fallen out and your head is bald you should consult some one at once who makes a specialty of the hair. Where the follicles are present there is a cure for you. An examination which will cost you nothing, may prove of endless value to you. Professor Birkholz, the German hair specialist of Chicago, where he may be consulted in private, and free of charge, by those who desire treatment. An examination will cost you nothing, and should he find that there is the slightest chance to cure you he will treat you under guarantee to cure or ask no pay. PLAYING IRISH MUSIC.

A Chinese Fiddler Who Prefers Celtic Melodies to Melican Tunes.

Extensive as in every San Franciscan's knowledge of the city's Chinatown, says the Call, nowhere can be found a citizen who had any recollection of hearing of a Chinese who played popular airs on a violin with any sort of a touch that is suggestive of early training and an ardent admiration for music. But Lee Fong is just such a heathen prodigy, with a history that is of exceeding interest. They call him "Tom Flanagan," for strange to relate, the boy has a great liking for Irish airs and melodies and plays them in preference to the compositions of German or American composers. Tom came to California about eight years ago. He first listened to the playing of a violin at a theater in Oakland. He liked "Melican music," and often stood for hours at a park or open-air concert listening to a brass band discourse popular airs. Finally the idea struck him that it would be possible for him to learn to play the fiddle, so straightway he hied him to a second-hand store, where he purchased a violin for \$6.

"Me no like China music," said he with a contemptible sneer. "Too much dum, dum, too muchee squeak."

With the help of a German, who jokingly undertook to give Tom preliminary instruction in the production of harmonious sounds, the Chinese learned to handle the bow with considerable dexterity. His advance was rapid, and in less than two years Tom could do musical justice at any country hoedown, and inspire even a more elevated social gathering with exhilaration when he drew music out of the violin strings.

"Ilish music heep lively," said Tom, as he drew his finger along his violin's base string. "You like me play for you?"

"By all means."

"I play."

"The Wearing of the Green," "Kil-larney," and an Irish jig followed. Tom's arm swung with an easy motion and his foot beat time. His eyes dilated a little and his mouth twitched, showing that he felt in his very soul the vibrations of the sweet Celtic melodies.

The Cause of Dew.

An examiner once visited a college of some importance in the north of England.

Among other questions he asked what was the cause of dew.

No one could answer.

At last one of the pupils got up and said:

"The earth turns on its axis once in every twenty-four hours with such a rapidity that it perspires and thus produces dew."—Spare Moments.
